**Remedy Interactive's Ergonomics Software Solution Selected by Four Major Clients - Growth Rate Fastest in the Industry**

**LAS VEGAS, NV - December 9, 2002** - Ergonomic software solution provider Remedy Interactive

[www.remedyinteractive.com](http://www.remedyinteractive.com)) ends 2002 with four new, major clients. **GE Medical, Pacific Gas & Electric,** telecommunications equipment manufacturer **Ayava,** and the **University of California (Los Alamos National Labs)** have all purchased Remedy Interactive's WorkWell system in the current quarter. These companies join other major clients including **General Electric, Visa, ChevronTexaco,** and **Hewlett-Packard,** all of which currently use WorkWell. No other ergonomic software solution provider can match the industry-leading growth rate set by Remedy Interactive.

Remedy Interactive's online solution, WorkWell, reduces costs. It assesses risks, educates employees, and provides reports that allow companies to pinpoint the areas that need the most attention. Next, companies use the data to automate personalized follow-up communication with employees with the goal of mitigating risks as early as possible, efficiently.

"We are excited that these additional new clients have continued Remedy Interactive's explosive growth rate," said Kim Lopez, CEO of Remedy Interactive. "Their selection of our solution over all others, including current high touch in-house solutions, validates our belief that highly customizable automation will play a large role in the prevention of ergonomic injuries in the future."

Ms. Lopez also noted that new and current clients all share the same goals: They have an interest in streamlining their ergonomics programs and in reducing the costs associated with repetitive strain injuries (RSIs). Remedy Interactive's tools are significantly more interactive than competing products. In addition, customers can easily customize all facets of the system.

Remedy Interactive is showcasing its recently announced WorkWell Version 1.5 at the National Ergonomics Conference and Exposition at Caesar's Palace in Las Vegas which concludes on December 12th.

For more information about WorkWell Version 1.5, and to arrange an online demo, visit [www.remedyinteractive.com](http://www.remedyinteractive.com) or call Remedy Interactive at 800.776.5545.
