Worldwide Partners Renew Value-Added Reseller Agreements for Remedy Interactive's Injury Prevention Software and On-Demand Solutions

SAUSALITO, CA - June 27, 2006 - As a testament to the success of injury prevention initiatives for enterprises, four worldwide resellers have renewed their value-added reseller agreements with Remedy Interactive, Inc. Remedy Interactive is a leading provider of enterprise solutions that help organizations reduce costs related to employee injuries. Therapeutic Associates (US), Keytools (UK), ergonomicoffice (Australia) and Trisoft (Sweden) will continue to distribute Remedy Interactive's two primary software solutions: the OES and RSIGuard. The OES is a flexible web-based solution that proactively identifies risks of workplace injury and automates injury prevention activities; RSIGuard is a desktop injury prevention software for small, medium, and public sector organizations.

Remedy Interactive's value-added resellers representing the four corners of the world are:

- Therapeutic Associates (www.therapeuticassociates.com) – Therapeutic Associates provides physical therapy and rehabilitation services with 55 clinics throughout the Western United States. Injury prevention, injury management and early return to work services are offered through their Work Kinetics program. The company has been in business since 1952 and started working with Remedy Interactive in Q1 2005. Recently, Therapeutic Associates renewed its reseller agreement and bought Remedy Interactive's OES to help manage its injury prevention program.
- Keytools (www.keytools.com) – Keytools, a provider of office tools and accessories that improve the human/computer interface, is Remedy Interactive's distributor in the United Kingdom and has been reselling RSIGuard since 2003. Recently, the Southampton-based company renewed its RSIGuard partnership agreement because it believes that RSIGuard is the highest quality software product available for reducing office-based injuries.
- ergonomicoffice (www.ergonomicoffice.com.au) – ergonomicoffice is an authorized government-endorsed supplier in Australia, specializing in cost-effective intervention products. Since 2004 it has distributed Remedy Interactive's OES. ergonomicoffice also distributes a localized version of RSIGuard, called "Guardian ergonomicoffice Software," ensuring that the product it distributes meets Australia's specific needs.
- Trisoft (www.trisoft.se) – Trisoft, a consultancy that focuses on IT services for small and medium businesses, resells leading ergonomics products to the Swedish market. The Stockholm company has been an RSIGuard reseller since August 2004, and extended its distribution agreement in 2005. That same year, RSIGuard won the "Best in Test" award from Swedish magazine MikroDatorn, and also won the "Best Buy" award from PC Hemma magazine.

“All four companies are leaders in their injury prevention markets with strong reputations and knowledgeable staff – key characteristics that Remedy Interactive looks for in a partner,” said Kim Lopez, CEO of Remedy Interactive. “As we expand our offerings, we will expand our reseller program to other countries who also value injury prevention as the most important step in reducing costs of workplace injuries.”

“We choose only the best products for our portfolio. It’s clear that Remedy Interactive has a deep understanding of customer needs and delivers the highest quality and most effective software in the industry,” said Tim Roberts, Managing Director of Keytools. “Having worked with its team for several years, we remain convinced that Remedy Interactive’s commitment to customer success is unmatched, and we are proud to extend our relationship.”

In addition to the US, UK, Australia and Sweden, Remedy Interactive’s OES and RSIGuard are available to organizations worldwide either directly or through a number of convenient channels. For more information, please visit: http://www.remedyinteractive.com/customers_partners.cfm.
